

45. (New) The system of claim 32 wherein the output subsystem comprises a special effects unit for receiving special effects output from the application execution and control unit and configuring the special effects output for use by a user.
46. (New) The system of claim 32 wherein the output subsystem comprises a stereoscopic display unit for receiving stereoscopic display output from the application execution and control unit and configuring the stereoscopic display output for use by a user.
47. (New) The system of claim 32 wherein the output subsystem comprises an acceleration feedback unit for receiving an acceleration feedback output from the application execution and control unit and configuring the acceleration feedback output for use by a user.
48. (New) The system of claim 32 wherein the local secondary application subsystem comprises a audio/video playback unit.
49. (New) The system of claim 32 wherein the local secondary application subsystem comprises a console application unit.
50. (New) The system of claim 32 wherein the input subsystem comprises an input interface for receiving input and configuring the input for use by the application execution and control unit.
51. (New) The system of claim 32 wherein the output subsystem comprises an output interface for receiving output from the application execution and control unit and configuring the output for use by a user.

REMARKS

By this Preliminary Amendment, claims 1-30 have been canceled and claims 31-51 remain for examination.

Jun. 18. 2004 12:53PM

No. 0089 P. 7

Application Serial No.: 09/879, 557
Attorney Docket No.: VREX-0001USAADN01

These amendments introduce no new matter and Applicants respectfully submit that claims 31-51 are in condition for allowance.

Respectfully submitted,

Bradley M. Marazas
